DETAILED ACTION

1. The response to the restriction requirement filed 23 September 2008 has been noted and made of record.
2. The Applicant has elected Group I; therefore, claims 1 and 3 have been presented for examination.
3. Claim 4 has been cancelled as per applicant's request.
4. Claims 2 and 5-12 have been withdrawn from consideration.

Response to Arguments

5. Applicant's arguments with respect to the restriction requirement filed 23 September 2008 have been fully considered but they are not persuasive. As the Examiner noted in the restriction requirement claims 5-12 were drawn to a genus, while claims 1 and 3 are more specific and therefore drawn to a species. While the Examiner concedes there are similarities between the claims, the burden exists in the fact that art found for claim 1 would be able to reject claims 5-12 but the inverse would not be true. In other words, the Examiner could find art to reject claims 5-12 that would not apply to claim 1 and therefore require multiple searches and multiple inventions. As such the restriction is held to be proper and is maintained.

Allowable Subject Matter

6. Claims 1 and 3 are allowed.
7. The following is an examiner's statement of reasons for allowance:

The Examiner was unable to find a tamper protection system for a television receiver in accordance with the amendments of 09 June 2008 to claim 1. The Examiner was also unable to

find anything that would render such a system obvious. Therefore, the invention of claim 1 is novel and not obvious.

8. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christian LaForgia whose telephone number is (571)272-3792. The examiner can normally be reached on Monday thru Thursday 7-5.

10. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kambiz Zand can be reached on (571) 272-3811. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

11. Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
